A. UNPAN Sitemap

B. DPADM Sitemap

C. Introduction to UNPAN Portal

1) Basics on Content Management System (CMS)

A website consists of 2 essential components: content and code....

- Content - the text, images, audio files, video files that users experience
- Code - this is the html and scripting that enables the content to be displayed in the right layout

The challenge is to publish latest content with ease and speed, without having to be concerned about the code and application.

There are 2 alternatives on publishing content:

- **The traditional approach**
Content (text) and code (html) are merged in a single file. Web developers will use web editing tools such as Microsoft FrontPage or Macromedia Dreamweaver to create and edit the files. There may also be content integrated to database such as Microsoft SQL Server or Oracle Databases.
- **Content Management System (CMS)**

UNPAN Portal is using the second approach with a CMS, for the following reasons:

1. A content management system (CMS) distinctly separates the content from the code
2. The CMS provides an easy to use rich text editor so that content providers, which include all **UNPAN Partners** can easily add, edit and update content.

2) Content Management System

A **Content Management System** (CMS) consists of 3 layers.

- A. Content – the images and text on the website
- B. Design – the background design and presentation
- C. Database and web application

A. Content

Content is the single most important reason for users to visit a website

B. Design (Skin)

Design Skins provide the backdrop for user content, much like the picture frames in paintings, and are designed to complement and enhance the text and image content on webpages.

C. Database Application

This consists of the underlying database, administration and host modules, code, HTML etc.

For UNPAN portal, both the design and the database application are already integrated and controlled by CMS.

So all content providers will only need to add on Content, which will be covered in the rest of this documentation.

All stakeholders i.e. UNPAN Partners, will share the responsibility for updating the content directly. Changing and maintaining content is easier and significantly more efficient with CMS.

D. Who can contribute and how

All authorized users, with the given User name and Passwords, will have access to the modules which they can add content

E. Adding Content in UNPAN Portal

Content is added by adding new items to modules, such as **News, Events, Documents, Resources**.

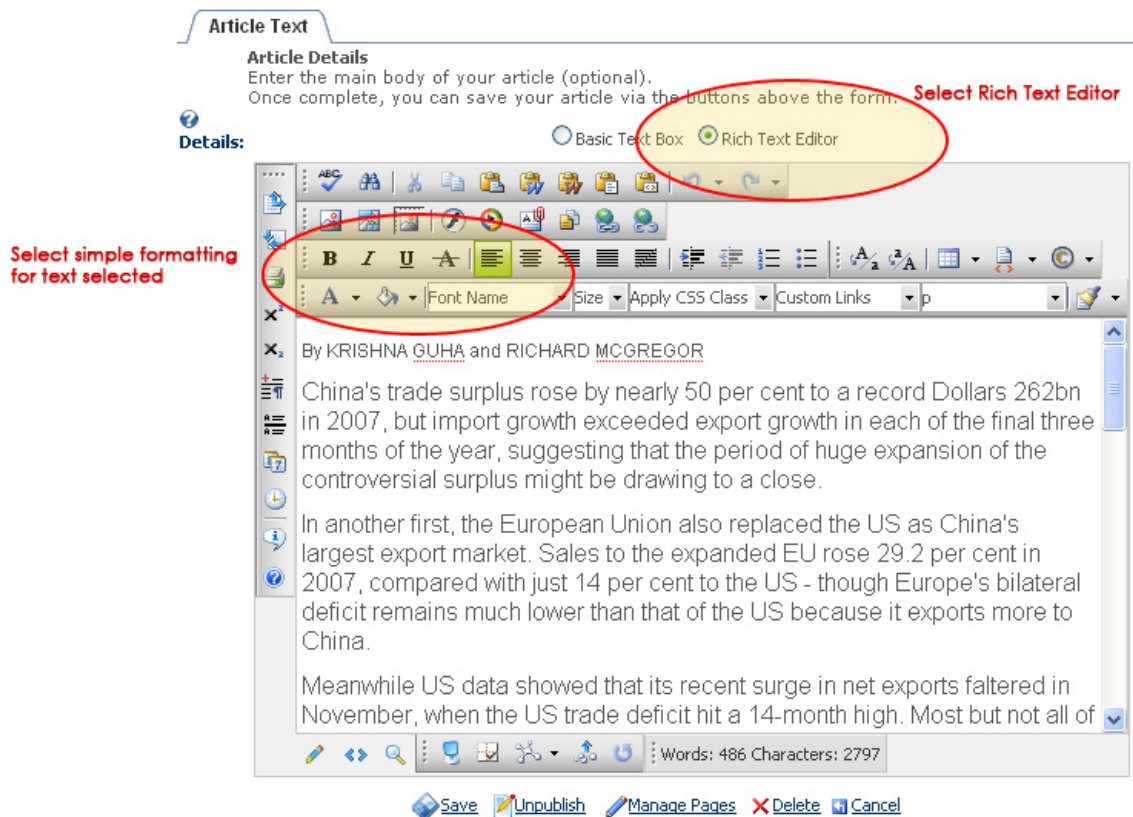

To add new content to a module, navigate to that page by clicking on its link in the navigation menu.

NOTE: It is recommended that you turn off any popup blockers that you may have turned on in your Internet browser when adding content to your pages

F. HTML Editor

Most of the modules will include HTML editor for formatting Rich text content.

Rich text refers to formatted text e.g. bold, italics, font, font size, font colour etc. The rich text editor or HTML editor has the look and feel of a word processor such as MS Word.

[\[top\]](#)

Steps on using the HTML Editor

1) Click on the Edit icon

When you 'hover' the mouse over the 'Down Arrow', a dropdown list of actions will be displayed. Select **Edit Content**

2) Add Text and Images

To modify the text or HTML content of a Text/HTML module, click on the Edit Text link or button at the bottom of the module. This will change your module body to a simple HTML editor. Here you can add and format text, create hyperlinks from text, insert images (or modify existing ones) and more.

To format existing text, select the text with your mouse pointer, and then click on the formatting icon above the text box.

To add a hyperlink to your text (or to create a hyperlink from existing text), select your text that you want turn into a link and click the Insert/Edit Link (chain) icon above the text box. From the popup box, choose the Link Type, and specify the URL, or click on Browse Server to choose a page on your site to link to. Additionally, you can choose a target (such as new window or a popup window) by clicking on the Target tab

3) Adding Images

To add an image to your Text/HTML content, click on the Insert/Edit Image icon above the text box.

On the Image Gallery popup window that opens, you can specify the URL to the image if you know it, or to upload one from your computer, click the Browse Server button.

From the new popup window, click the Browse button to find the image on your computer.

Once you have selected the image, click the Open button. Then click the Upload New File link next to the Browse button. This will upload your image to the server, from where you can then select it from the Image Gallery below.

In the Image Properties window, specify the alignment if you are aligning it next to text. You can also add a hyperlink to the image here by clicking the Link tab and then specifying the URL or click the Browse Server button to link to a page on your site.

When you are done, click OK.

4) Previewing the Content

You may preview the content before uploading to the website

5) Save Your Work

Scroll to the bottom of the page and click on the Update link to save your work. Your new content is published to the website, subject to module approval.

Quick Reference - HTML Editor in UNPAN Portal

GENERAL BUTTONS		
	Design button - Switches RadEditor into Design Mode.	-
	HTML button - Switches RadEditor into HTML Mode.	-
	Preview button - Switches RadEditor into Preview Mode.	-
	Allow users to create image maps through dragging over the images and creating hyperlink areas of different shapes.	-
	Allows the user to apply to the current selection font size measured in pixels, rather than a fixed-size 1 to 7 (as does the FontSize tool).	-
	Show/Hide Border - Shows or hides borders around tables in the content area.	-
	Zoom - Changes the level of text magnification.	-
	Repeat Last Command - A short-cut to repeat the last action performed.	-
	Find and Replace - Find (and replaces) text in the editor's content area.	Ctrl+F
	Cut button - Cuts the selected content and copies it to the clipboard.	Ctrl+X
	Copy button - Copies the selected content to the clipboard.	Ctrl+C
	Paste from Word cleaning fonts and sizes button - cleans all Word-specific tags and removes font names and text sizes.	-
	Paste Plain Text button - Pastes plain text (no formatting) into the editor.	-
	Paste as HTML button - Pastes HTML code in the content area and keeps all the HTML tags.	-
	Undo button - Undoes the last action.	Ctrl+Z
	Redo button - Redoes/Repeats the last action, which has been undone.	Ctrl+Y
	Format Stripper button - Removes custom or all formatting from selected text.	-
	Quick Help - Launches the Quick Help you are currently viewing.	-
INSERT AND MANAGE LINKS, TABLES, SPECIAL CHARACTERS, IMAGES and MEDIA		
	Image Manager button - Inserts an image from a predefined image folder(s).	Ctrl+G
	Insert Table button - Inserts a table in the RadEditor.	-
	Toggle Table Borders - Toggles borders of all tables within the editor.	-
	Hyperlink Manager button - Makes the selected text or image a hyperlink.	Ctrl+K

	Remove Hyperlink button - Removes the hyperlink from the selected text or image.	Ctrl+Shift+K
	Insert Special Character dropdown - Inserts a special character (€®, , , etc.)	-
	Choose HTML Template - Applies and HTML template from a predefined list of templates.	-
CREATE, FORMAT AND EDIT PARAGRAPHS and LINES		
	Insert New Paragraph button - Inserts new paragraph.	Ctrl+M
	Outdent button - Indents paragraphs to the left.	-
	Indent button - Indents paragraphs to the right.	-
	Align Left button - Aligns the selected paragraph to the left.	-
	Center button - Aligns the selected paragraph to the center.	-
	Align Right button - Aligns the selected paragraph to the right.	-
	Justify button - Justifies the selected paragraph.	-
	Bulleted List button - Creates a bulleted list from the selection.	-
	Numbered List button - Creates a numbered list from the selection.	-
	Insert horizontal line (e.g. horizontal rule) button - Inserts a horizontal line at the cursor position.	-
CREATE, FORMAT AND EDIT TEXT, FONT and LISTS		
	Bold button - Applies bold formatting to selected text.	Ctrl+B
	Italic button - Applies italic formatting to selected text.	Ctrl+I
	Underline button - Applies underline formatting to selected text.	Ctrl+U
	Strikethrough button - Applies strikethrough formatting to selected text.	-
	Superscript button - Makes a text superscript.	-
	Subscript button - Makes a text subscript.	-
	Font Select button - Sets the font typeface.	-
	Font Size button - Sets the font size.	-
	Text Color (foreground) button - Changes the foreground color of the selected text.	-
	Text Color (background) button - Changes the background color of the selected text.	-
	Custom Styles dropdown - Applies custom, predefined styles to the selected text.	-

G. Add Events

This section applies to both **Conferences** and **Training**

Step 1:

Select a Region

E.g. Regions > Arab States > Events>

Select either Conferences or Training

The screenshot shows the UNPAN website interface. At the top, there is a navigation bar with links: Discover, What's New, Regions, E-Learning, News, Library, Events, Directories, Forum, U-Admin, and Admin. The 'Regions' menu is expanded, showing a list of regions: Global, Africa, Arab States, Asia & Pacific, Europe, Latin America & Caribbean, and North America. The 'Events' menu is also expanded, showing options for Public Administration News, Library, Events, and Directories. The 'Events' menu is further expanded to show 'Conferences' and 'Training'. A 'UNPAN Quick Poll' is displayed on the right side of the page, asking 'Day to celebrate the value and value of service to the community?'. The poll results show 'Yes (11) 79%' and 'No (3) 21%'. Below the poll, there is a 'View Survey' link. The main content area features a large banner for the '7th Committee of Experts on Public Administration (CEPA)' held in New York from April 14-18, 2008. Below the banner, there is a search bar and a 'wm admin | Logout' link. At the bottom, there is a row of images representing different regions: Global, Africa, Arab States, Asia & Pacific, Europe, Latin America & Caribbean, and North America. The footer contains the URL 'http://www2.unpan.org/Regions/Africa/Events/Conferences/tabid/466/Default.aspx' and the IP address '157.150.195.30'.

*MEMO:

Please make sure that Portal is in 'Edit' Mode. This setting is found on the top left corner

Step 2:

Click the 'Down Arrow' on the top left corner of the Content Panel
Select **Add Event**

Mode: ☐ View ☒ Edit

Select **Focus**

* The Focus categories and sub-categories may change over time

The screenshot shows the 'Add/Edit Event' form in the UNPAN system. On the left is a navigation menu with categories like Global, Africa, Public Administration, News, Library, Events, Conferences, Training, Directories, Arab States, Asia & Pacific, Europe, Latin America & Caribbean, North America, E-Learning, News, Library, Events, Directories, and Forum. The main form has fields for 'Event Title', 'Start Date' (3/26/2008), and 'End Date' (3/26/2008). The 'Focus' section contains a list of categories with checkboxes: e-Government and m-Government, Knowledge Management in Government, Citizen Engagement (checked), Post-conflict Reconstruction and Management, Ethics, Transparency and Accountability, Result based Budgeting and Evaluation, Leadership and Capacity Development, Human Resources Management & Development, Performance Management, Innovation and Change Management & Development, Public Policy and Strategy Development, Government System, and Public Finance Management. Below this is a 'Venue' dropdown menu currently set to 'None' with an 'Add Venue' button. A 'Details' section with a rich text editor is also visible. The browser address bar shows the URL: http://www2.unpan.org/Regions/Africa/Events/Conferences/tabid/466/ctl/Event/mid/1508/Default.aspx#.

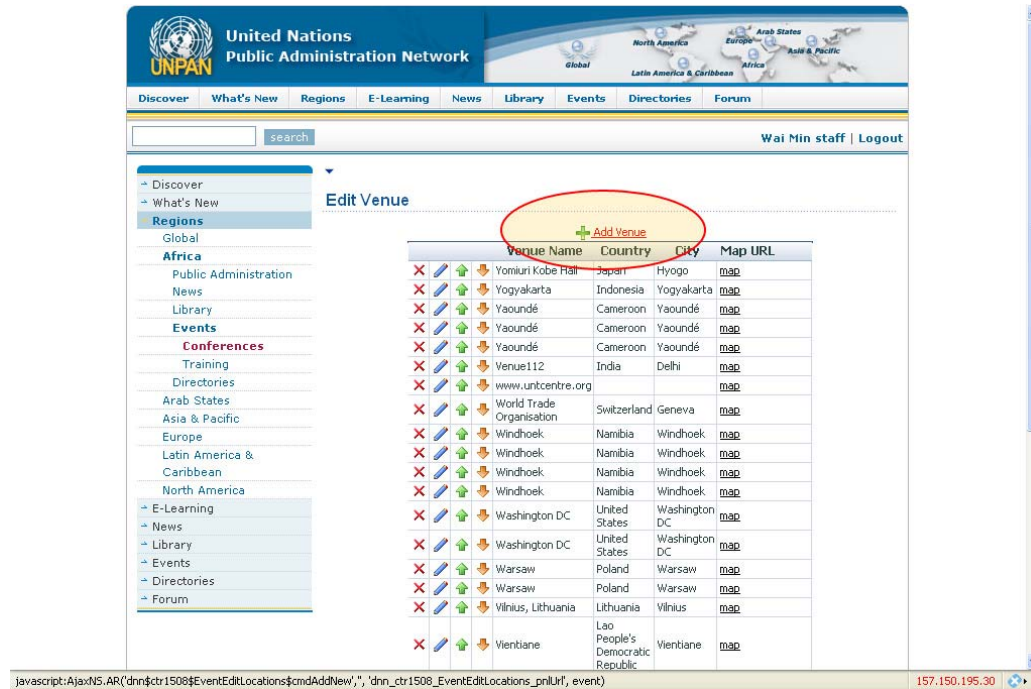

Select **Venue**, by typing the first few letters.

If the venue is not found in existing database, click **Add Venue**

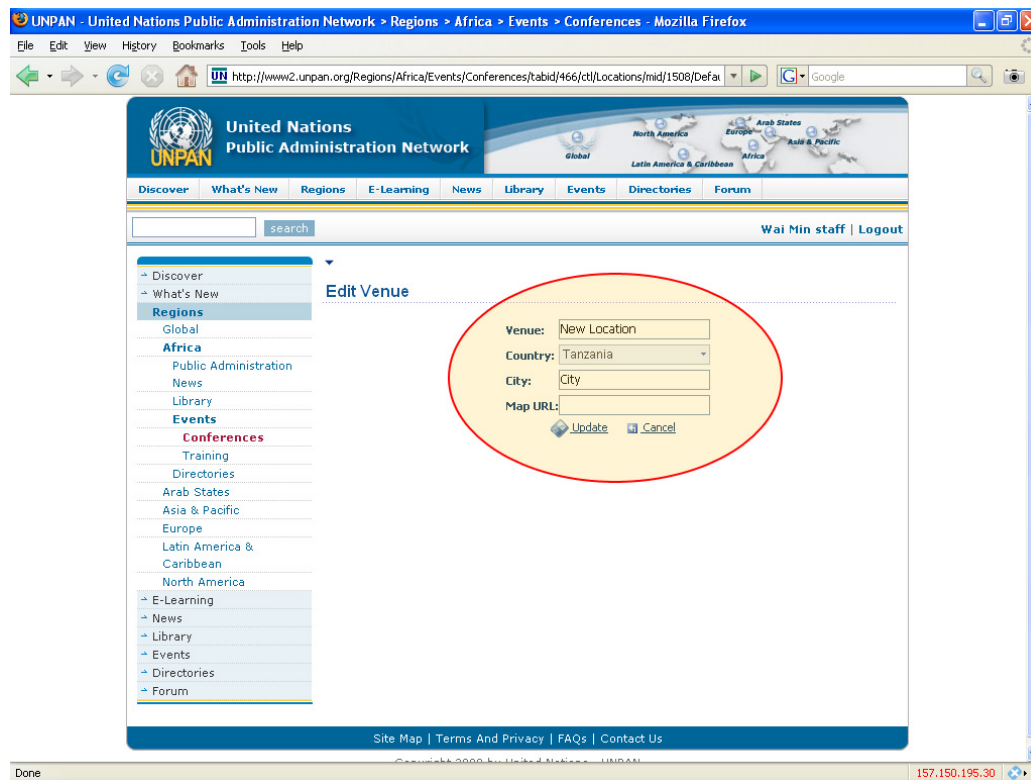

** Your data typed in earlier may be lost should you **Add Venue**. Please Add Venue before typing event details

This screenshot shows the same 'Add/Edit Event' form, but with the 'Venue' dropdown menu open. The menu lists several locations: Austria Center, Austin, TX, Athens, As per time table, Argentina, Arco Felice di Pozzuoli, Arco Felice di Pozzuoli, Agaba, and Asia. The 'Austria Center' is currently selected. The 'Add Venue' button is still visible next to the dropdown. The rest of the form, including the 'Focus' section and the rich text editor, remains the same as in the previous screenshot. The browser address bar shows the URL: http://www2.unpan.org/Regions/Africa/Events/Conferences/tabid/466/ctl/Event/mid/1508/Default.aspx.

Select Add Venue

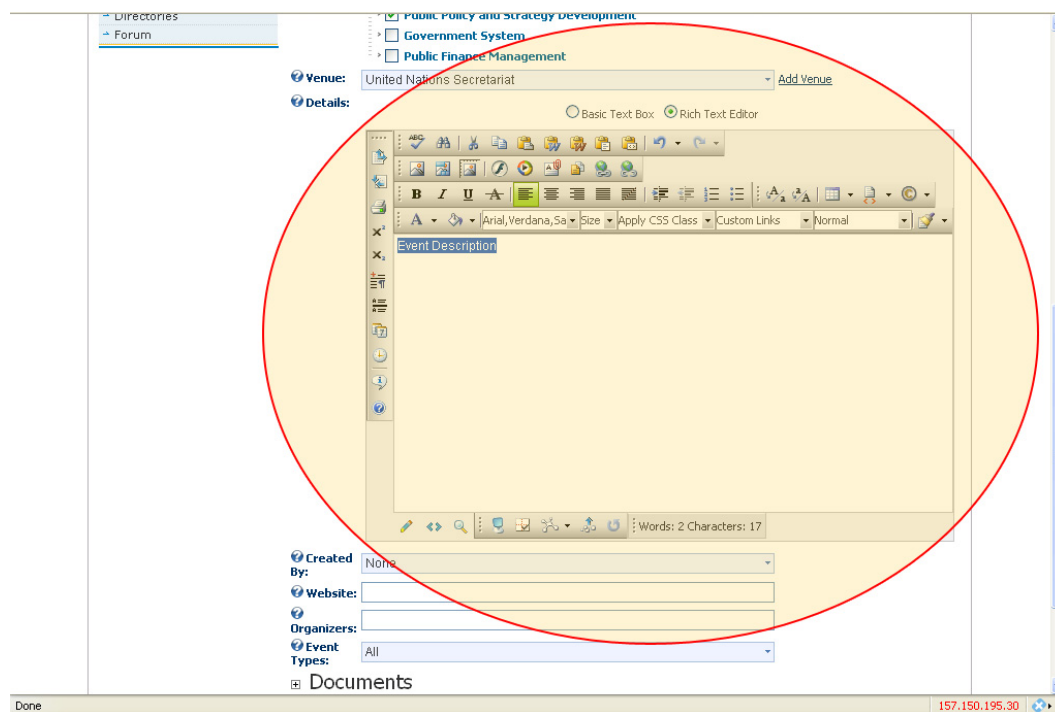

Type **Venue**, **Country** (from dropdown list) and **City**. You may also include a **Map URL**. Click **Update** to save information

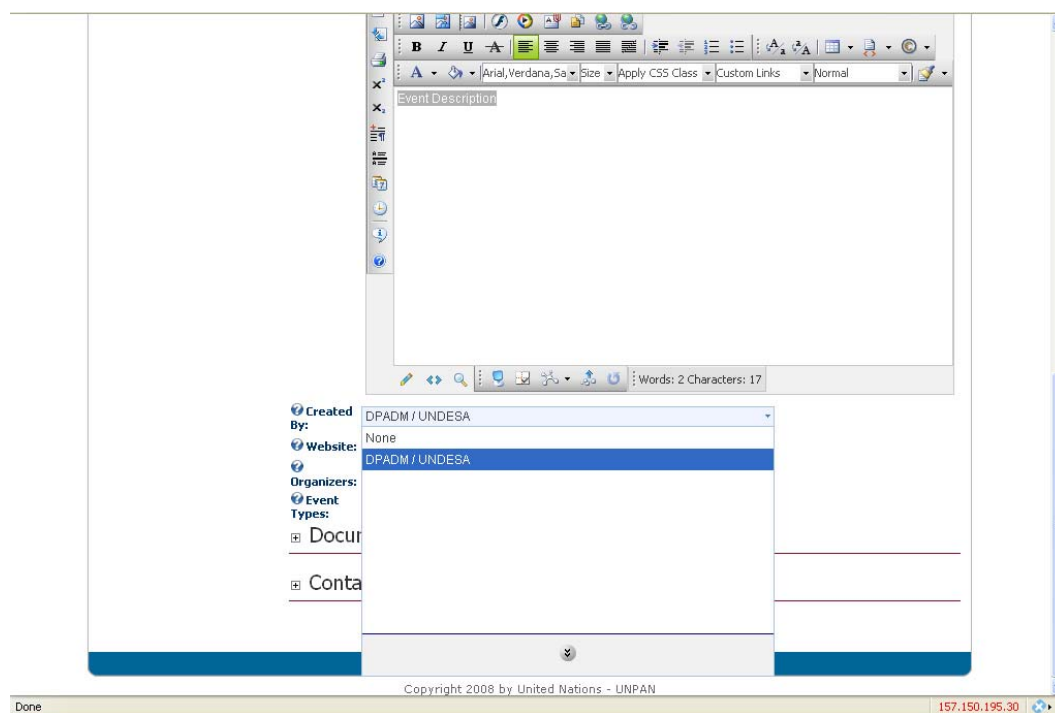

Type Event **Details** in **HTML editor**

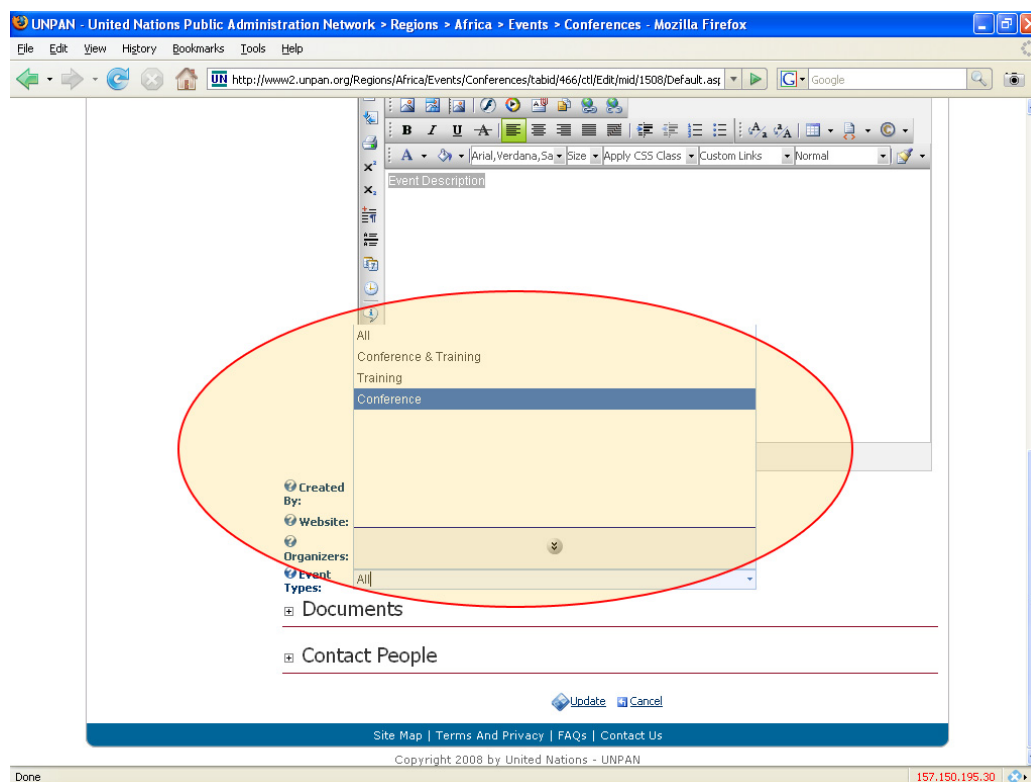

* Refer to section on HTML Editor for more information

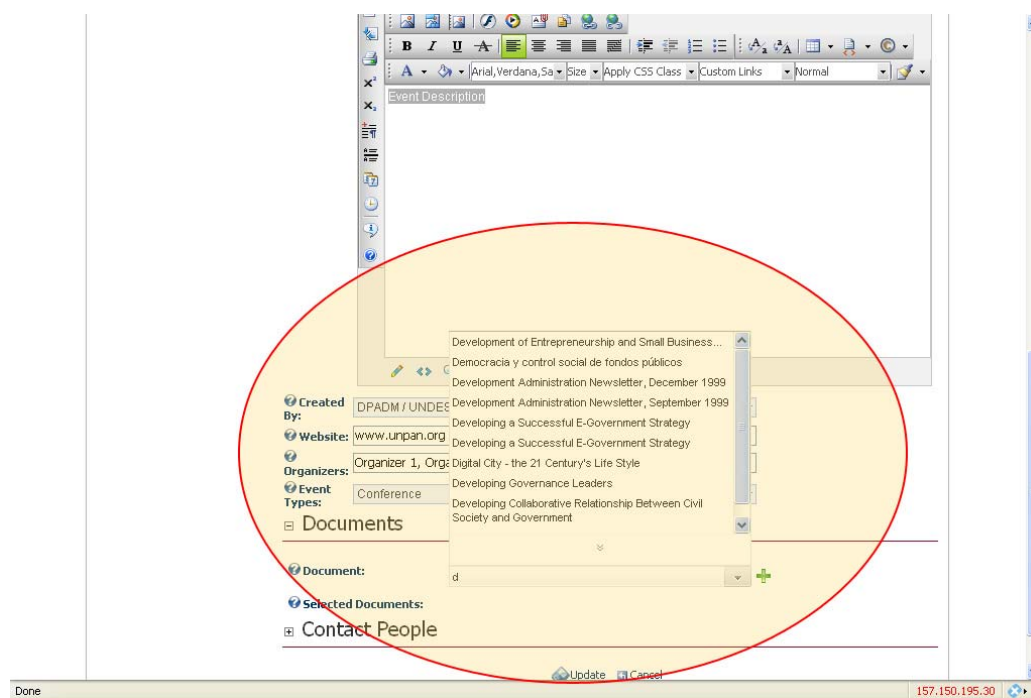

Select **Created By** in the dropdown list, which will show the list of all **UNPAN Partners**

Select **Event Type**, which may be either **Conference** or **Training** or **both**

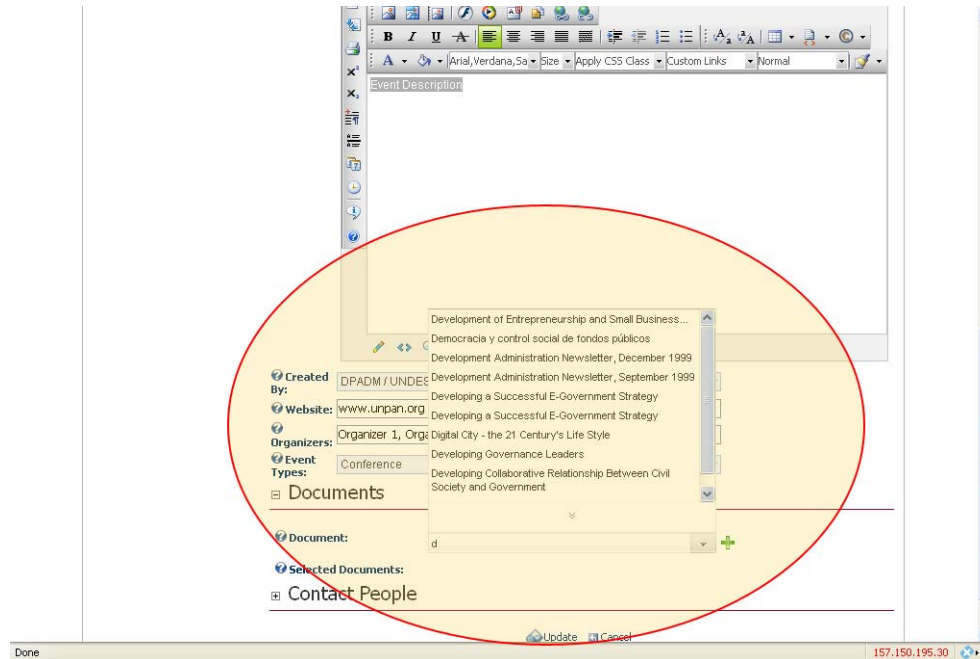

Type in **Event Website**, if any
Type in **Organiser(s)**. For multiple organizers, you may list all separated with commas.

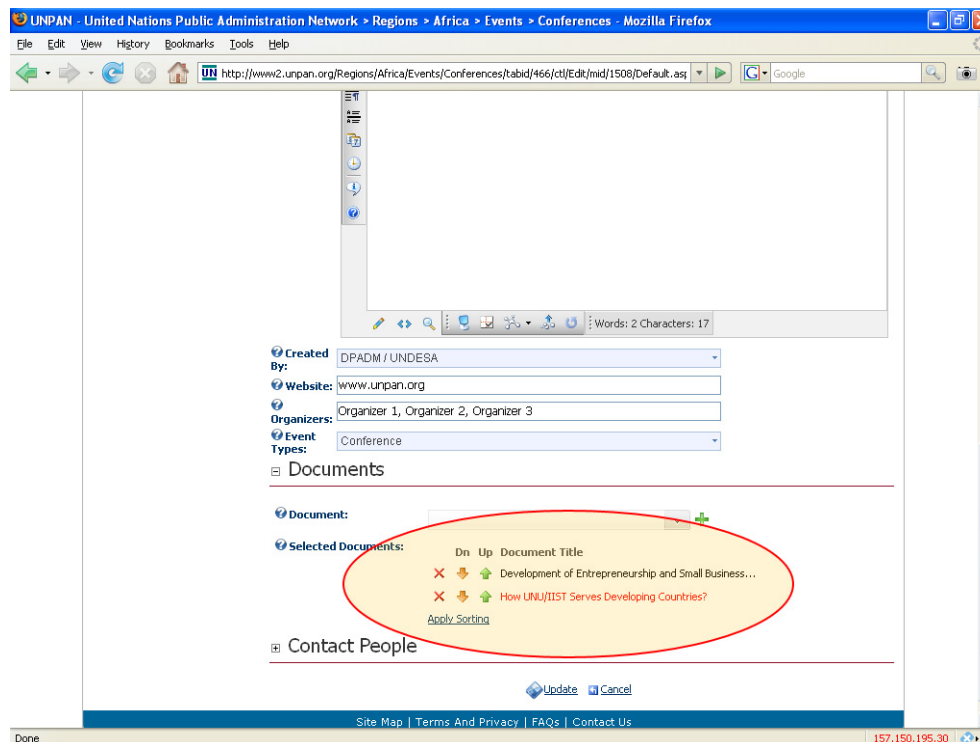

Add Document

You may add documents which are in **UNPAN Content Server**.

1. Click on the '+' icon next to Documents
2. Type in the first few letters of the Document Title, and click on '+' to add

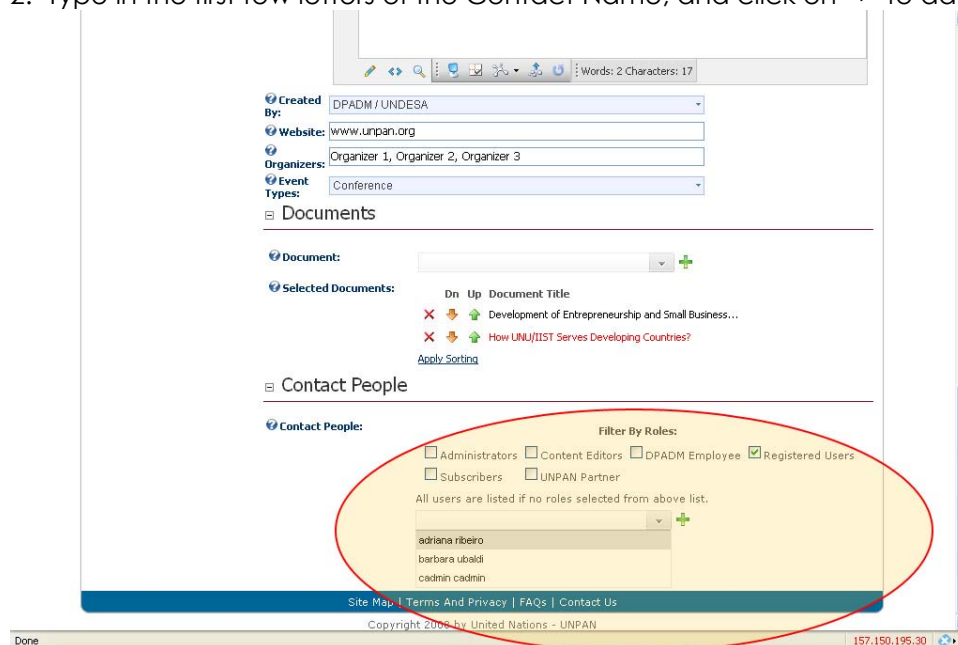

You can now see the documents added in the list displayed. You may also apply sorting to the list

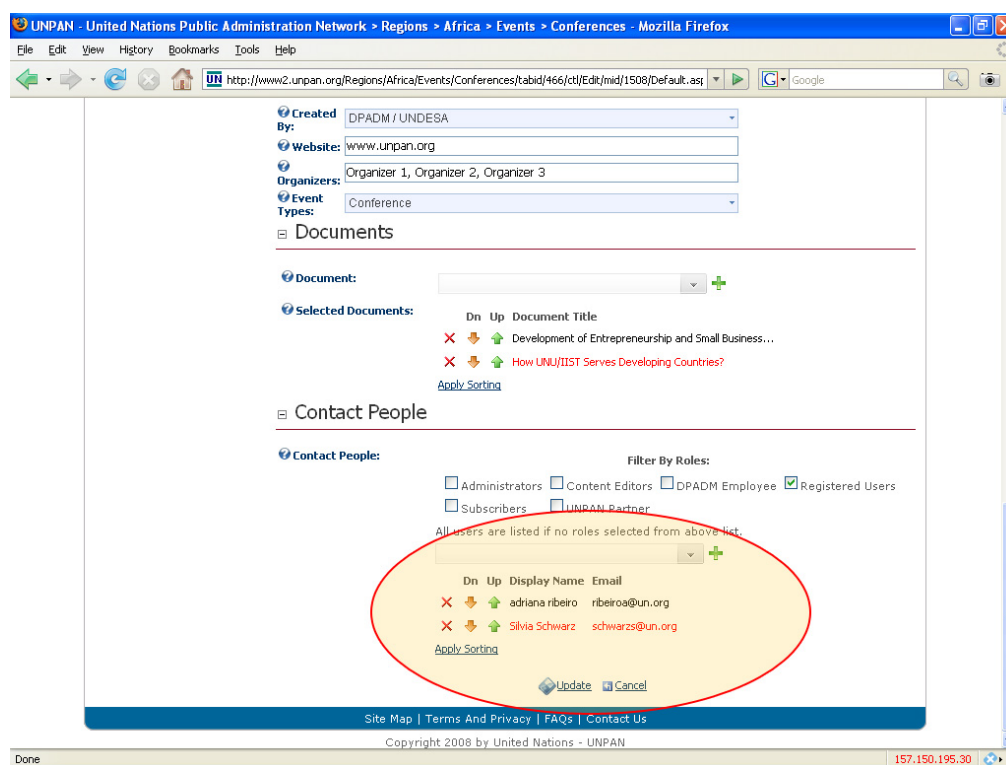

Add Contact

You may add **Contacts** which are in **UNPAN Contacts**.

1. Click on the '+' icon next to Contacts
2. Type in the first few letters of the Contact Name, and click on '+' to add

You can now see the **Contacts** added in the list displayed.
You may also apply sorting to the list

Click '**Update**' to save the Event
